

BUFFALOES MOVING.

The Pennsylvania Delegation to the Convention at Buffalo, have adopted measures for a complete organization, on the Free Soil platform. A State Mass Convention is to be held at Reading, on the 15th September, to form an Electoral ticket, &c.

They are also making preparations for an Electoral ticket in Illinois.

FRANCIS P. BLAIR.—The friends of this gentleman in Anne Arundel county, Md., in public meeting, unanimously absolved him from any obligation incurred by attending, as a delegate, the National Democratic Convention, and recommended a like course on the part of others whom he represented. This was done in consequence of the recent avowal of Mr. Blair that his sympathies are with Mr. Van Buren, and that he will vote for Cass as a matter of "punctilio."

"Keep it before the People." That GEN. CASS' friends say he was one of the aid-camps of Harrison, in the war of 1812, and was always by his side—that these same locofoco friends, in 1840, declared that Harrison was a coward, and not within one mile of a battle—and that, as a matter of course, his aid was in no engagement!

THE BATTERY.—We have received a copy of "The Battery," one of the best campaign papers in the Union. It is published in Washington City, weekly, until the middle of November, on the following terms:

Single subscription, \$0.50
Twelve copies, 5.00
Twenty-five copies, 10.00
We cordially recommend it to our readers as every way worthy of their patronage; it being published at the seat of government, has means of information possessed by none out of the city. Address, George S. Giese, Washington, D. C.

INDIANA.—The locofocos have a majority in the Legislature, although the whigs have a majority of the popular vote. Indiana may be safely set down for Old Zack in November.

The opponents of Gen. Taylor have dwelt much upon the fact that he never held a civil office. By way of reply his friends have asked what civil office Gen. Washington ever held before his election to the Presidency? To this an Indiana editor rejoins with an air of triumph that Gen. Washington "held the office of county and district surveyor in Virginia!"

THE BUFFALO "FREE SOIL" CONVENTION.—The editors of the Anglo-Saxon, will publish, in pamphlet form, the proceedings of the "Free Soil" Convention, lately held in Buffalo, verbatim as they occurred, word for word, not only of the members and participants, but the interruptions of the audience and spectators. The proceedings were taken down by Mr. O. Dyer, the celebrated Phonographic reporter. The object of the publishers is to illustrate the superiority and accuracy of the Phonographic system of quick writing over any other. Cash orders addressed to the publishers, Andrews & Boyle, 22 Spruce street, New York, will be filled. Price 12-1-2 cents; to the trade \$8 per hundred.

KILLED.—We learn that Dr. Thomas A. Austin of Carrollton, met with a terrible accident on Monday last. While riding at full speed he was thrown from his horse with great violence, bruising and mangle him in a shocking manner. He died in a few minutes.—Glasgow News.

The New York Herald, gives the following summary of the present political division of parties in the Empire State:

Whigs	217,000 for Taylor.
Old Hunkers	140,000 for Cass.
Barnburners	127,000 for Van Buren.
Total	284,000.

In this statement 15,000 abolitionists are included with the Barnburners.

KENTUCKY ELECTION.—The Louisville Journal has returns from 88 counties of the vote for Governor. These counties show a clear gain for Crittenden of 3,475. Twelve counties are yet to be heard from, which gave Owensley a majority of 1,409. If they should give Crittenden the same vote, his majority in the State will be 8,099. The majority will not vary much from this vote.

OFFICERS FOR OREGON.—The Washington correspondent of the Baltimore Clipper writes that Mr. Burnett of Oregon, Mr. Turney, of Illinois, and Mr. Bryant of Indiana, have been appointed Judges, and Mr. Twitchell of Pa., Secretary of the Territory of Oregon.

THE VOTE IN CONVENTION.

We understand there was several ballots in the Buffalo Delegate Committee while in secret session, and that the final ballot for Presidential Candidate stood:

M. Van Buren	246
John P. Hale	181
J. R. Giddings	19
C. F. Adams	15
Scattering	4

Van Buren's majority over all, 27.

The hemp factories of this city and vicinity resumed work on yesterday, as the suspension for 60 days expired on Saturday. Hemp is brisk at \$100 per ton, or \$5 per hundred weight.—Lexington, Ky., Atlas.

WASHINGTON, Aug. 21.

Gen. Lane of Indiana, has been appointed Governor of Oregon, vice Gen. Shields declined.

WHIGS IN THE LEGISLATURE.—As far as heard from, in this State, twenty-four whigs have been chosen to the lower House of the next General Assembly.

THE QUARREL BETWEEN BENTON AND BUTLER.

Correspondence of the N. Y. Journal of Commerce.

WASHINGTON, Aug. 13, 1. A. M. Mr. Butler of South Carolina, rose to a question of privilege, and moved that the galleries be cleared, and the doors closed. He had come here to make a motion for an investigation, in secret session, of a palpable violation of the confidence of the Senate, by one of its members. He read the rules respecting the executive proceedings. His allusion was to the resolution introduced into the Senate, in secret session, by Mr. Benton containing charges against Gen. Kearney, and which Mr. Benton, had communicated for publication in the New York Herald, as he had publicly avowed.

You will notice that Mr. Benton has, to day, and often, made vehement personal attacks on Mr. Calhoun, and the other night he assailed Mr. Berrien.

A question of order as to proceeding arose.—All were rising and speaking, Mr. Benton's voice rising above those of all others, exclaiming—let us have it with open doors, &c.

There was great excitement. Very excited language was used by many. Regardless of order, a personal altercation went on between Mr. Butler and Mr. Benton.

It is provided in one of the rules read that upon any "quarrel arising between two members," a motion may be made, &c., Mr. Benton exclaimed, "I have quarreled with no one. Many have tried to quarrel with me. I never had a quarrel in my life. I have fought sometimes—fought to a funeral—but never had a quarrel! If any one accuses me of having done anything dishonorable he shall have the lie in his throat. I will make no quarrel about it. But that man shall have the lie in his throat. I will adjourn the matter to another place, &c. Mr. Butler arising and turning fiercely to Mr. Benton, cried out—I am ready to meet you any where. Mr. Benton repeated—you have the lie in your throat, &c.

Cries of "order," "order," "sit down," "sit down," arose from every quarter.

Luckily, though daggers were spoken, none were used.

EDUCATION—PAST—PRESENT—HOWARD HIGH SCHOOL.

Messrs. Green & Shirley.—The State election being over, and the public mind having become calm again, it may not be amiss to call the attention of the people, and particularly the rising generation, to a subject still more important. I mean Education. The writer is one of the early settlers of this State, and was born over half a century ago in the Valley of the Mississippi; is old enough to know the benefit of a good education, and experience has fully taught him the great drawback it is to progress in the affairs of life to be without it. Fifty years ago, in the whole Valley, when the writer was a barefooted boy, there was no chance to obtain anything like a good education; then it contained only some three or four hundred thousand people, scattered over an immense space of country, now embraced in many new States, containing from ten to twelve millions of thrifty and prosperous people. The country has wonderfully improved—things seem to have changed as if by magic; and in nothing is the difference greater, than the facilities which are now afforded for obtaining a good Education, over what they were then; then, common A. B. C. schools were like angel's visits, "few and far between" now, almost every neighborhood furnishes a school at which a good English Education may be obtained, which, of itself, is worth more than a fortune without one—for money could not then, near home, purchase it. But not so now, for in nearly every district in the country, there are schools at which not only a good English, but a Classical Education can be had, at a very moderate expense, both for males and females. Having been in my youth almost entirely uneducated, from the causes before referred to, I cannot help but feel some astonishment not only at parents and guardians, but at the youth of our country themselves, at the little interest they seem to take in these schools. Young gentlemen, particularly, nearly all have it in their power to obtain, by their own exertions, by following some business for six and going to school six months of the year, an education that would soon enable them to impart instruction to others, by becoming teachers themselves; and scarcely any young man who is qualified but can obtain a school, by which he cannot only make a decent support, but while he is thus engaged, can prepare himself for some other business, that may finally lead him to the highest station of life among his fellow men.

We, Messrs. Editors, have the Howard High School, in the town of Fayette, in every way deserving and receiving the public support, where, at a very moderate expense, a solid, as well as to a considerable extent an ornamental education can be had, for both males and females, toward which I would most earnestly recommend the attention of all persons desiring an education, to place their children, wards, or themselves. They will find it is conducted on principles calculated to give a solid education. Let our children attend with a determination to learn, and very soon they will find themselves qualified, so far as education can qualify them, for most of the general avocations of life. This school is not one merely on paper, of fair promises and poor performances; but has grown up to its present reputation and usefulness, from a small and ill-sustained beginning, until time and experience have shown that it is conducted on solid principles, which insures rapid improvement to its pupils, and a public benefit to the country; until its reputation is deservedly, and without disparagement to others, equal, if not superior, to any institution in the State.

If I find leisure hereafter, and you will allow me the use of your columns, I may enter into some details, which may tend to show how easy it is now for a young man, however limited his means, to obtain at this school, a good education, by his own exertions; and show, perhaps, that after he has acquired it, how easily he may find employment to support himself—and, finally, with the practice of virtue, economy and industry, will lead him to the high respectability and elevation in society. Let them try, with a determination to succeed, and they will not be disappointed.

A FRIEND TO EDUCATION.

THE REPUBLIC OF SIERRA MADRE.—This proposed republic will, if established, embrace a territory of about 250,000 square miles having a population of one and a half millions. The boundaries will be the Rio Grande on the North, the Sierra Madre Chain of Mountains on the South and West, and the Gulf of Mexico on the East. The city of San Luis is intended for the Capital.

ROCKWELL & Co.'s Circus exhibit here on Monday. They are very favorably spoken of where they have exhibited.

CORTIVENESS, headache, giddiness, pain in the side and breast, nausea and sickness, variable appetite, yellow or swarthy complexion, &c., are the usual symptoms of a disordered liver. Wright's Indian Vegetable Pills are certain to remove from the body those morbid humors which are the cause, not only of all disorders of the liver, but of every malady incident to man. A single 25-cent box in all cases give relief, and perseverance, according to directions, will most assuredly drive every particle of disease from the body.

BEWARE OF COUNTERFEITS.—THE ONLY ORIGINAL AND GENUINE INDIAN VEGETABLE PILLS HAVE THE SIGNATURE OF WILLIAM WRIGHT WRITTEN WITH A PEN ON THE TOP LABEL OF EACH BOX. None other is genuine, and to counterfeit this is forgery. The genuine is for sale by BOON, TALBOT & SMITH, sole agents for Fayette; D. C. CHAMBERLAIN, Champion's Mill; S. CARROLL, Glasgow; FELIX REDDING, Keytesville; M. T. ATKINS, Brunswick; and wholesale and retail by HENRY BLANKLEY, St. Louis. Office and general depot, 109 Race Street, Philadelphia.

Monthly Bulletin No. 8.

DURING the months of July, August and September, stomach and bowel complaints "ravage many portions of the country. One-third of all the deaths during that period will be the result of these difficulties. For the cure of the Graefenberg CHILDREN'S PANACEA will prove an infallible preventive and cure. For adults suffering under the worst forms of diarrhea and dysentery, bloody flux, and the like, the Graefenberg DYSENTERY SYRUP is equally infallible.

The tables of mortality in the city of New York, during the week ending the 15th July, instant, show that out of 284 deaths, 106 were caused by the above diseases! The same ratio will elsewhere appear.

In fevers, fever and ague, and the like, the celebrated GRAEFENBERG VEGETABLE PILLS and HEALTH BITTERS are the only reliable medicines, and they should be procured without a minute's delay. The Graefenberg Sarsaparilla Compound is taking the lead of all others, and contains double the number of doses of any other.

The General Agent for Missouri, and South part of Illinois, is E. K. WOODWARD, St. Louis, to whom applications for agencies may be addressed.

Men Die of their Prejudices!

There have been thousands doubtless, who suffered disease to destroy their happiness here, and even life itself, rather than resort to the use of what are generally styled "Patent Medicines;" no matter what health-improving virtues these may have possessed. Accustomed to hear a cry against these remedies, they choose to deprive themselves of the happy benefits they might have received from them, and vainly endeavor to bolster up their failing condition by the ordinary purges of the day, which were less efficient, though perhaps more fashionable and costly. But we rejoice that these harmful prejudices are fast losing their sway over the minds of the people, by the many truly wonderful cures performed by the successful combination of medical agents for the removal of all diseases of the lungs and chest, DR. WISTAR'S BALM OF WILD CHERRY. Sold by Dr. SKELSON, Fayette; Dr. HENDERSON, Glasgow; Malone & Garth, Huntsville.

Chill Fever, Dumb Ague, Intermittent Fever, and all the various forms of BILIOUS DISEASES.

This valuable medicine is undoubtedly the safest, surest and best remedy ever discovered for the cure of the above named diseases. It not only breaks the fever, but removes the cause from which the disease originates. Its operation is both general and special.

While it acts generally upon the whole system, as a most powerful alterative, purifying the fluids, freeing the solids from all morbid secretions, and reinvigorating and bringing up all the vital energies to a standard of permanent health; it acts at the same time as a specific upon the liver, digestive organs and lymphatic and glandular system; exciting them to healthful activity, removing all morbid matter, equalizing the circulation, restoring their proper and necessary secretions, thus accomplishing a complete renovation from disease, and restoration to sound and permanent health.

It will be readily conceded by every intelligent mind that a Tonic Syrup composed of the valuable ingredients, carefully selected from the Vegetable Kingdom, must possess far more potent properties for the complete eradication of the diseases for which it is especially prepared, than can possibly be compounded with the limited quantity usually administered in the form of Pills.

Those who are suffering with the prostrating AGUE and FEVERS, common to the west and south—those whose constitutions have become enfeebled by the use of mercury, quinine, or other violent remedies—should resort at once to the use of this VALUABLE MEDICINE.

It has cured and will cure the most obstinate cases. Travelling through every vein and artery of the human body. The whole animal economy is made to undergo a thorough radical change. Even the mind partakes of the healthful process, and life, that before appeared one dreary waste, begins again to seem worth possessing.

Pamphlets respecting this valuable medicine, can be obtained of the agents gratis.

CAUTION.

As there are many spurious preparations of similar name hawked about the country and sold on the reputation of the genuine

SMITH'S TONIC SYRUP.

we therefore beg leave to caution the public against imposition, as we cannot hold ourselves responsible for the effects which may result from the use of spurious articles.

WRIGHT'S

Indian Vegetable Pills in the City of Mexico!—Great success among the Volunteers!—Letter from a High Sheriff of South Carolina!

Extract of a letter from the editor of the Greenville Mountaineer, S. C.

Dr. W. WRIGHT: Dear Sir:— * * * A week or two ago I sent you a Mountaineer, containing a letter from one of our Volunteers in the City of Mexico, in which he pays WRIGHT'S INDIAN VEGETABLE PILLS, under the circumstances, the highest commendation of praise I have ever known a medicine to receive.

The Volunteer, William G. Goodlett, Esq., is a gentleman of fine standing—an accomplished and well educated man, and was recently

HIGH SHERIFF

Of this District. By one of your advertisements in a Charleston paper, I happened to notice the location of your office, and thought you might extract an article of some value in regard to your medicine, therefore I sent the paper.

The following is an extract from the letter referred to above:

"My health is very fast improving. I procured a few days ago, some of Dr. Wright's Indian Vegetable Pills, and they have acted on my system

LIKE MAGIC! Thus it appears that the brave and patriotic Volunteers who have gone to Mexico, to defend the rights and honor of their country, already begin to realize the extraordinary value of this incomparable medicine. Long life to them!

HORRIBLE MISTAKES!!

Are sometimes made by confounding one medicine with another, and administering the wrong article. Equally horrible are those mistakes which are made in supposing that all Pills are alike, and that therefore, it is indifferent which are taken, and if one kind is bad all are bad together. This is a very great mistake. There is as much difference between Wright's Indian Vegetable Pills and other articles, as between midnight and midnight!

We do not wish any one to take our word merely for this statement. Let any one, having taken other medicines, try this—Nothing more will be necessary.

Many persons have been led away by a COATING OF SUGAR, as if they anticipated that it would remove the nausea of the Medicine. But they are generally mistaken. Without the SUGAR those articles would have nothing to recommend them, and would not be sold a single day. But with the sugar, and by giving the article a name similar to Wright's Indian Vegetable Pills, they gain a temporary notoriety. Wolves they are in sheep's clothing, of whom the public should steer sufficiently clear.
